Hyderabad, Telangana, India

Summary

Associate Software Engineer with 1.5+ years of experience in backend and full-stack application development. Skilled in Java, Spring Boot, REST APIs, Microservices, MS SQL Server, Redis Cache, and modern software engineering practices. Experienced in designing, developing, and maintaining enterprise applications, including Background Verification Systems (BGC) and Leave Management Systems (LMS). Strong understanding of object-oriented programming, database design, authentication, caching strategies, Agile methodologies, and application performance optimization. Passionate about building scalable, secure, and high-performance software solutions.

Core Competencies

- **Programming Languages:** Java, Python, JavaScript, C, C++
- **Backend Technologies:** Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Node.js, Express.js, Django, Flask
- **Frontend Technologies:** ReactJS, HTML5, CSS3, Bootstrap, JavaScript
- **Databases:** MS SQL Server, MySQL, MongoDB, SQLite
- **Architecture & APIs:** REST APIs, Microservices, Monolithic Architecture, MVC Architecture
- **Security:** Spring Security, JWT Authentication, OAuth 2.0
- **Caching & Performance:** Redis Cache, Query Optimization, Database Performance Tuning
- **Tools & DevOps:** Git, GitHub, Maven, Docker, Postman, Swagger, Jira, Azure DevOps
- **Data Analytics & Machine Learning:** Python, Pandas, NumPy, Scikit-learn, PyTorch, Tableau, Power BI
- **Interpersonal Skills:** Problem Solving, Time Management, Leadership, Critical Thinking, Communication

Professional Experiences

I. Associate Software Engineer | Client Server Technology Pvt Ltd. (Oct 2025 – Present) | Hyderabad

Projects: **Background Verification System (BGC) & Leave Management System (LMS)**

- Develop and maintain enterprise applications using Java, Spring Boot, Hibernate, JPA, MS SQL Server, and Redis Cache.
- Design and implement RESTful APIs for candidate onboarding, verification workflows, leave management, approvals, and reporting.
- Work on both Monolithic and Microservices architectures to build scalable and maintainable applications.
- Develop database schemas, stored procedures, views, and optimized SQL queries in Microsoft SQL Server.
- Implement caching strategies using Redis to improve application performance and reduce database load.
- Integrate authentication and authorization mechanisms using Spring Security and JWT.
- Participate in Agile development processes, sprint planning, code reviews, and production support activities.
- Collaborate with Business Analysts, QA teams, and frontend developers to deliver high-quality business solutions.
- Troubleshoot production issues, perform root-cause analysis, and implement long-term fixes.
- Use Jira for sprint management, task tracking, defect resolution, and project collaboration.

Achievements

- Successfully delivered multiple production-ready modules across BGC and LMS platforms.
- Improved application performance through Redis caching and SQL query optimization.
- Contributed to scalable backend solutions supporting enterprise-level business operations.
- Maintained high code quality standards through peer reviews and best development practices.

II. Software Developer Intern | AISHWI Technologies Pvt. Ltd. (Apr 2024 – Oct 2024) | Remote

Projects: Online Exam Portal & Company Home Website

- Developed backend APIs using Node.js, Express.js, MongoDB, and MySQL for data management and user authentication.
- Designed and maintained database schemas to ensure efficient data storage and retrieval.
- Implemented JWT-based authentication and security best practices to enhance application security.
- Collaborated with frontend developers to deliver end-to-end full-stack solutions.

- Participated in application testing, debugging, deployment, and maintenance activities.

Achievements

- Successfully developed and deployed an Online Exam Portal using Node.js, Express.js, MySQL, and JWT Authentication.
- Implemented role-based access control, dynamic question management, and result processing features.
- Contributed to the development of a company website with dynamic content management capabilities.

III. **Machine Learning Intern | Rinex Technologies Pvt Ltd. (May 2022 – Aug 2022) | Remote**

Projects: Signature Forgery Detection & Hate Speech Detection in twitter

- Developed and deployed machine learning models using Python, Scikit-learn, and PyTorch to solve real-world problems.
- Performed data pre-processing, feature engineering, and exploratory data analysis to improve model performance.
- Built classification models using machine learning and NLP techniques for pattern recognition and text analysis.
- Collaborated on model training, evaluation, and optimization to enhance prediction accuracy.

Achievements

- Improved model accuracy through feature selection and data optimization techniques.
- Developed a Signature Forgery Detection system using Flask, PyTorch, and PIL for real-time signature verification.
- Built a Hate Speech Detection model using Python, Scikit-learn, and NLP for tweet classification and sentiment analysis.
- Delivered machine learning solutions with improved accuracy and practical business applications.

Projects

YouTube Clone

- Developed backend services using Node.js and MongoDB.
- Implemented authentication, video management, and user interaction features.

Personal Dashboard

- Built a responsive dashboard using ReactJS.
- Deployed on Vercel for scalable and reliable access.

Education

Education Bachelor of Technology in Computer Science, Jawaharlal Nehru Technological University, Hyderabad | Jun 2020 – Jun 2024.

Telangana State Board of Intermediate Education (MPC), Vagdevi Junior College, Mahbubnagar, Telangana | Jun 2018 – Apr 2020.

Certifications

- MERN Stack Developer | PrepInsta Platform
- Software Developer | AISHWI Technologies Pvt Ltd
- SQL Nano Degree | PrepInsta Platform

Achievements

- Facilitated an **Interactive DevOps Workshop (2023)**, demonstrating leadership and project management by guiding teams to achieve objectives.
- Completed **Python Training (2022)** with EZ Training & Technologies and successfully hosted the "Code Story Coding Contest," a three-day hackathon.
- Earned participant certificates in live workshops on **SQL**, **Power BI**, **Tableau**, and **Data Science & Analytics**.
- Achieved competitive rankings in coding platforms: **HackerRank** (13,000 score, ~95,000 rank), **LeetCode** (~1,97,000 rank), **InterviewBit** (11,000 global rank, 1st university rank), and **Smart Interview** (11,068 global rank).
- **Languages**: English, Hindi, Marathi, Telugu
- **Interest:** Football, Cricket, Chess, Reading, Photography, Travelling, Learning New Technologies
